

What 'help' is available?

- Over the next 6 months, the project team is aiming to
 - Provide information on the opportunities for sustainable products in the OSM market
 - Advise 25 companies on the development of specific products and provide an opportunity to demonstrate these to the potential market
 - Assist 15 companies with new product development through 30 hrs of technical and business expertise.
 - Provide an even higher level of support for the development of 4 new products or processes in the sustainable OSM field.
